## ST. LUKE'S HOSPITAL TRAINING SCHOOL FOR NURSES.

This school is conducted by St. Luke's Hospital, which was established fifty-four years ago, and is one of the oldest and best known institutions of its kind. Its standing with the medical profession and the general public is and always has been such that comment is unnecessary. While it is an Episcopalian institution, the question of creed never enters into its work, either as to patients or the selection of the pupils in the Training School.

The capacity of the hospital, including the "George Smith Memorial" private patients' building, is about four hundred.

From seven thousand to eight thousand patients are treated per annum. The following classes of patients are treated:

Medical,	Surgical,
Gynaecological,	Obstetrical,
Ophthalmological,	Rhinological,
Otological,	Laryngological,
Oral Surgical,	Orthopedic,
Dermatological,	Neurological,

Pediatric.

Such contagious cases as develop in the Hospital are treated, thereby offering a limited experience in this class of nursing.

The Training School is an integral part of the Hospital and is governed by the same Board of Trustees and officers which direct the Hospital proper. The Directress of the Training School exercises the functions of her office subject to the general authority of the Superintendent of the Hospital. With this reservation, the school is under her supervision and control. Her authority extends over all that pertains to the discipline and duties of the nurses and pupils, both in the Hospital and in the Home, and to their conduct at all times, as well as to their instruction.

The Training School building "Stickney House" was constructed from approved plans for its sole use. It provides individual sleeping rooms for most of the pupils and officers, public reception rooms, sitting rooms reserved for the use of the pupils, a library, gymnasium, lecture and class rooms. Probationers and pupils in the Junior classes are provided for in separate buildings "Saranac House" and "Hibbard Home." The school buildings are connected with the Hospital by corridors but otherwise are separate and distinct. The school numbers 200 pupils, divided into Preparatory, Junior, Intermediate and Senior classes.

The full term is three years, of which four months is devoted to preparatory work. All pupils must complete the full term, and must devote their whole time to the school, and not allow outside interests to interfere in any way. Any time which may be lost, save in vacations, must be made up at the end of the term. In sickness nurses will be cared for by the Hospital.

Candidates for admission must be between twenty and thirty years of age, in good general health, free from physical deformities, and must have a high school education or its equivalent. Women of superior education and refinement will be preferred. Married women are not accepted in the Training School. No exception is made to women who are divorced or separated from their husbands.

Women desiring to make application for admission should fill out the formal application blank in all its details, and send it, together with a letter giving a concise and complete account of the educational advantages which she has enjoyed, and the manner in which her life has been spent, to the Directress of the Training School. Also the following are required, Educational credentials, a testimonial as to character, etc., from the rector of her church, a letter from her medical attendant stating that she is in good health and that she is, in his opinion, physically able to undertake the course a certificate that she has been vaccinated within one year, and a statement from her dentist that her teeth are in good condition.

Applicants will be accepted at any time there is a vacancy and Preparatory classes will be started in February, June and October of each year. The probationary preparatory period is six months. During the probationary term probationers may, if dissatisfied, leave at any time, and may be rejected at the end of or any time during that period.

No charges are made for tuition. Pupils receive board, lodging and laundry from date of entrance.

During the preparatory course they provide their own dresses, but when accepted as pupils nurses are required when on duty to wear the uniform supplied by the Hospital. This uniform material is made solely for St. Luke's, Chicago, and cannot be purchased elsewhere. An excellent reference library is open to the nurses and the text-books are furnished free of charge.

After the pupil has been in this school twelve months she is permitted to have the blue cross (the badge of the school) embroidered on her left sleeves. The St. Luke's Chicago nurses are known as "The Blue Cross Nurses."

When the full term is ended and the final examinations satisfactorily passed the nurse will receive a diploma and a badge.

The course is comprehensive and includes about one hundred and fifty lectures and demonstrations by the members of the Medical Board. Lectures, demonstrations, quizzes and laboratory work in the school laboratory in urinalysis, bacteriology, pathology and chemistry are given by instructors. Class and bed-side instruction and demonstrations are given by the instructors in the different departments. Practical experience is given in the private rooms, wards, childrens' department, nurseries, orthopedic, surgical supply, obstetrical, X-ray departments and operating rooms, diet kitchens, pharmacy, and sundry other departments of the Hospital.

Pupils receive a thorough course in massage and dietetics, and especial attention is given to the preparation of food for infants and the general care of children. A kindergarten is conducted in the children's ward.

Pupils are given two hours each day, four hours each Sunday and one afternoon each week for recreation. Three weeks' vacation is given during the Intermediate and Senior years. Pupils will be assigned to the care of private patients in the Hospital, but are never under any circumstances sent to attend patients outside.

Nurses have two telephones in the home Stickney House Cal. 4581, Saranac House Cal. 117, and may call up their friends when they are off duty, they are never permitted to be called to the telephone when on duty. Messages may be left for them at the Training School office.

### **PROBATIONERS ARE REQUIRED TO BRING WITH THEM:**
